

AUTOCROSS  
**EOS**  
SUSPENSION

# RaRe Shock

## Features and performance :

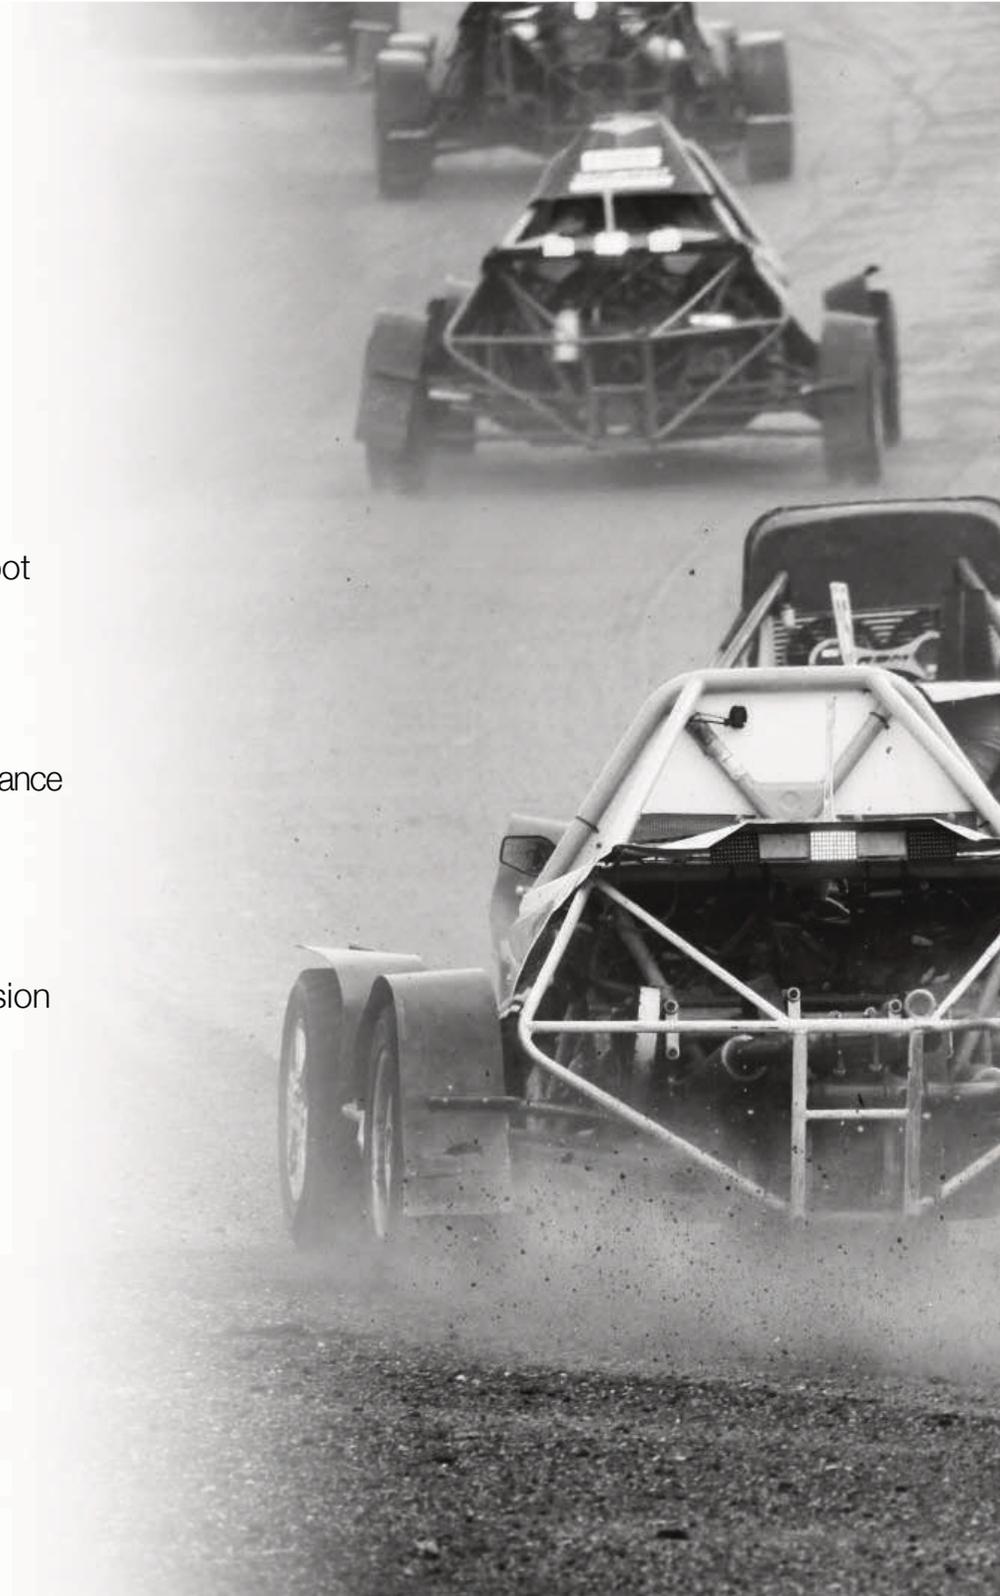

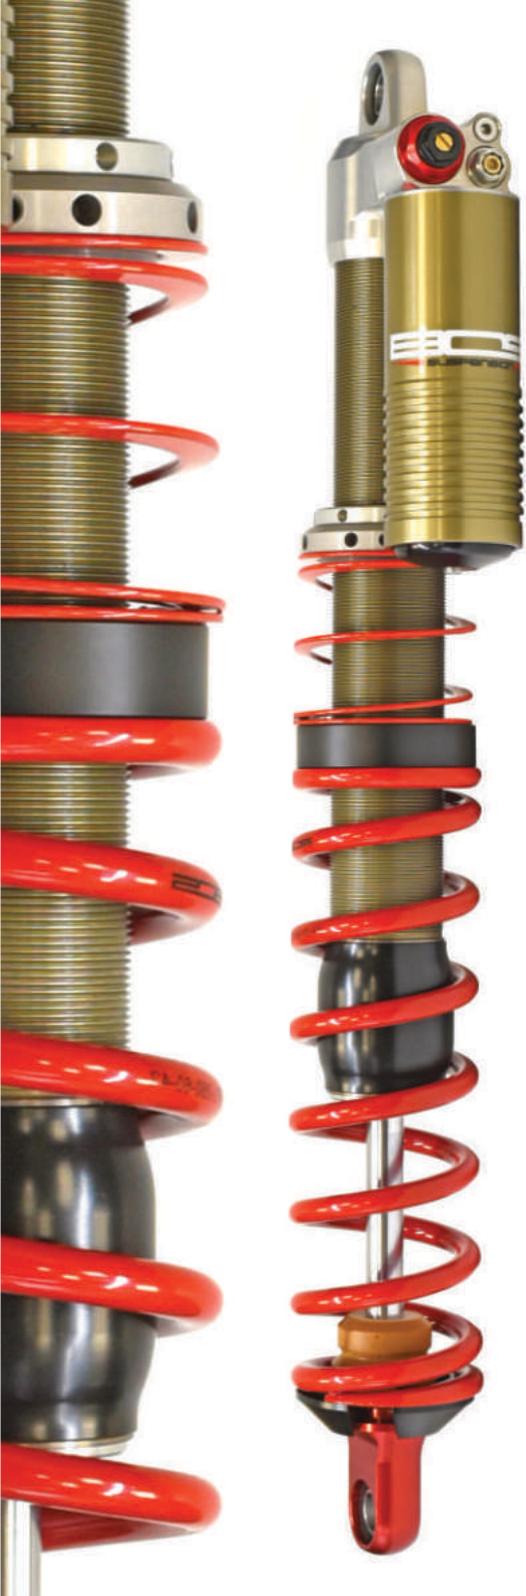

- Hydraulic compression stop
- Rebound stop
- Main piston : 35 mm
- Chrome steel shaft : 16mm
- Machined aluminum head, guide rod & foot
- Light spring
- Strong, reliable and optimized design
- Easy access to settings
- Easy and quick maintenance
- Designed, manufactured and assembled in France

## Technologies :

- Hydraulic shock absorber
- 3 ways adjustments in the shock head
- Rebound, low and high speed compression

**Race Ready shock absorber created for  
Sprintcar, Super Buggy & Buggy 1600**

Damper sleeve - Small  
Ref : 91707-D-397A

# RaRe *FCV* Shock

## Features and performance :

- FCV (*Frequency Control Valve*)

Filtering the ground signal.

## BOS Suspensions patented technology.

- Hydraulic compression stop
- Rebound stop
- Main piston : 35 mm
- Chrome steel shaft :16mm
- Machined aluminum head, guide rod & foot
- Light spring
- Strong, reliable and optimized design
- Easy access to settings
- Easy and quick maintenance
- Designed, manufactured and assembled in France

## Technologies :

- Hydraulic shock absorber
- 4 ways adjustments in the shock head.
- Low and high speed compression
- Low and high speed rebound.

**Race Ready shock absorber created for Sprintcar, Super Buggy & Buggy 1600**

Damper sleeve - Small  
Ref : 91707-D-397A
